300 LIVES LOST IN TIDAL WAVE SWEEPING **SOUTHERN** LOUISIANA

Followed Gale and Storm Which Devastated the Coast for Several Days and People Had No Chance to Escape

Angry Waters Rushed Into the Island for Distance of Two Miles-Wave Rose Suddenly As If Shot Up Out of the Ground.

(Special from United Press.) New Orleans, Sept. 22.-Refugees who reached New Orleans today from the coast declare that a tidal wave which swept from Grand Island westward to Vermillon Parish has claimed hundreds of lives. The most conservative estimate places the dead at 300. while others more radical declare many more are dead.

The tidal wave followed the gale

corpses that I thought for a time I was the only survivor."

Houms was reached by telephone today and the information revealed a terrible condition. The coastline for 25 miles was swept by the tidal wave and in some places the angry waters rushed into the inland for a distance of two miles. As the waters rushed into the little homes along the coast there was no chance for the escape of

I then started rolling down hill." Thousands of fishermen's and plant-ers' homes were swept away like so many straws. New Orleans is a city of desolation. After strug through a night in which the city struggling almost completely dark, the residents

and merchants in the poorer class will probably lose their all. Telegraph lines leading into the city of New Orleans are still down. The only out-side communication possible by tele-phone says the loss to property along the Mississippi cost will reach more

suffer the greatest damage. Houston, Tex., Sept. 22.-A wireless message was received to-day from New Orleans and then communication was cut off. The message confirmed

into the little homes along the coast the report that 300 persons were kill-there was no chance for the escape of the inhabitants. The wave rose suddenly as one eye-witness described it, and New Orleans except by wireless "Like if shot up out of the ground, and is impossible."

ST. PATRICK'S LEE ROASTS NEW CHURCH DRINK HABIT

to Be Erected for Father Nihill's Parish

CROWNING WORK OF PASTORATE 'TWILL BE

Its Steeple Will Tower 168 Feet Above Foundations and Be Landmark in North Bridgeport

Rev. James B. Nihill to-day made public the complete plans for the splendid new St. Patrick's church, a picture of which appears upon another page of the Farmer.

St. Patrick's parish, consisting of the Catholics who had been living in what was formerly the northern section of St. Augustine's parish, was organized May 29, 1889, Rev. James B. Nihill being appointed pastor at that time. Previous to his coming, how-ever, Father Cremin of St. Augustine's had secured for church purposes the old Lindley estate on Lindley St. For a full year after his appointment, Father Nihill celebrated Mass every Sunday in the Grand street public school, the Board of Education kind-ly giving, without compensation, the

use of a room.

It soon became evident to the priest that the Lindley street property was too far from the centre of the parish for church purposes.

In April, 1890, Father Nihill secured

the Eli Thompson estate, a magnifi-cent property, 250 feet by 200, bound-ed by Thompson street, North avenue and Parallel street. The purchase was made from Zalmon Goodsell, and the old mansion was immediately psed

as a rectory.

Ground was broken for the new church of St. Patrick, May 3, 1890, and the corner stone was laid on the third day of the following August, the work of construction being meanwhile pushed very rapidly. The basement of the church was made ready for divine service on the third day of December, in the same year.

This basement is of solid granite in

broken ashlar formation, and is one hundred and forty feet in length by sixty-four feet in width. Its interior is very cheerful, the ceiling, paneled in Georgia pine, being thirteen feet above the floor. It is practically above ground, and accommodates 800

people.

Here the good people of St. Patrick's have worshipped for nineteen years. When the basement of the church was completed a debt of \$60,000 incumbered the parish, then composed of 150 fam-flies none of whom were blessed with a superabundance of the goods of this world. They were, however, strong in faith and united in effort and generous of soul qualities abiding in Catholic communities and the secret of their marvelous success. The debt

founded it was anticipated that the of Bridgeport would be manifested in the northern part of the city, but during the first 14 or 15 years of the existence of the parish only about 50 families were added to the census list. Since the location of St. consist in the location of St. l'incent's hospital 5 years ago on forth Main St., vast improvements ave taken place in the northern sectinued on Second Page.)

are beginning to realize the enormous damage the storm has worked. Many fine homes are under water

was dying away and the people were beginning to think their troubles were over. There was no chance to escape as the wall of water burst upon the little villages along the coast and swept everything before it.

"My God! it was terrible," exclaimed one of the refugees who arrived here today. "Just as the poor people tried to bring order out of chaos following the terrible storm the tilal wave came and swept them away. I sawso many corpses that I thought for a time I was the only survivor."

Houms was reached by telephone to the says the loss to property along the Mississippi cost will reach more than \$10,000,000. Four hundred persons held up for two days on two Louisville & Nashville trains owing to washouts, reached New Orleans last night by boat. Some of them were almost exhausted from starvation. The suffering among the poor is a great problem for the city and already supplies are being brought in for them. Arrangements will be made to prevent looting as the water recedes and all members of the State militia will be held on duty in the city.

Magnificent Structure Soon Tells Baptists How He Rebuked "Man from Another Country"

> BAPTISTS MEET IN ANNUAL CONVENTION

Search to Be Organized for 41,000 'Floating' Baptists In New England

With 141 haptisms to their credit this year and several more churches to be heard from the 71st anniversary of the Fairfield County Baptist Association opened at the Second Baptist Church opened with a speech by Mayor Henry Lee in which he stoutly attacked the liquor habit. The mayor stated that it gave him great pleasure stated that it gave him great pleasure to address a church organization because of the good the church going people of the community have accomplished in bettering the city. He said Bridgeport was better than it was when he came here in the sixties. He could remember when the policy players used to publish their policy players used to publish their west of the routes of any previous more than a letter to his mother. This letter was given to me to mail and I made him cut out the reference to my discovery, because the letter would get to civilization two months before I could. "I did not see any remains of other expeditions, because I went far to the west of the routes of any previous more than and I made him cut out the reference to my discovery, because the letter would get to civilization two months before I could. numbers in the newspapers. He said they would not do it now. He said further, "I hope you will continue to preach against the drink habit for the community is greatly improved through the influence of the pulpit. I hope that the habit will be preached

hope that the habit will be preached against among women as well as among men for there are women in certain social walks of life who are just as much addicted to the use of liquor as the men. Only a few days ago a man from another country in whose company I was, said to me, as he took a drink, that a little wine was good for the stomach. I told him that I did not use the stuff and managed to get along without it at all times. I think the drink habit should be preached against because of the great penefit you can do the community by so doing. I welcome you to the city and extend to you its hospitality." Moderator J. Wilbur Richardson assured the mayor that the delegates would take nothing while in the city that would be stronger than the rain which was falling from the clouds. There are 28 churches in the asso-ciation and the pastors, the two dea-cons, with a representative from the Sunday school and Young People's Society of each church are entitled to a seat in the meeting of the convention. There were about 70 delegates present when the session was called to order at 10:30, but it is expected that this afternoon and tomorrow will see the number of delegates greatly increased. The ministers present this morning and the churches they represent are

as follows:
William Swanson, of Stratfield; J.
Wilbur Richardson, First, of Stamford; Edwin W. Husted, of Danbury;
Arthur Locke, of Easton; George W.
Nicholson, of First, of Bridgeport; A. in faith and united in short and generous of soul qualities abiding in Catholic communities and the secret of their marvelous success. The debt with all its interest accumulations was wiped out 3 years ago and St. Patrick's parish begins the completion of its great work with \$20,000 in the treasury.

When St. Patrick's parish was founded it was anticipated that the walk; R. T. Thomas, of the Pilgrim, of Stratford; J. A. Hammarborg, of the Swedish Bethel, of Bridgeport; and George C. Sauer, of the Memorial, of

Bridgeport. The officers of the association are:
Dr. J. Wilbur Richardson of Stamford,
moderator, and Rev. George C. Sauer,
pastor of the Memorial Baptist church
of this city, secretary-treasurer. Both
officers will probably be re-elected. BRIDGEPORT, CONN., WEDNESDAY, SEPT. 22, 1909

HEALTH BOARD MAKES ORDER CLOSING PLANT OF BY-PRODUCTS CO.

TWO MONTHS TO PASS ON COOK'S DATA

Explorer Says It Will Take This Time to Get Observations Before Scientists

WILL FIRST GO

In Deference to Danish Government that Recognized

Correctness of His Claims

TO COPENHAGEN

Through With Exploration and Will Never Seek the South Pole

(Special from United Press.) New York, Sept. 22.-It will be at least two months before any scientific body will be able to pass on Dr. Cook's data, for the explorer announced to-day that it will take this time for him to get his observations and calculations in shape for submission to any accepted investigation board. The proof of his claim Dr. Cook says, is not at all dependent upon Harry Whitney's return, for all the data that Whitney has is but duplicates of the material already in the doctor's pos-

Regarding the interview with Matheson, Commander Peary's colored cook and companion in which he stated that he had talked with the Eskimos of Etah and they had said that Cook was never out of sight of land, Dr. Cook said he was not surprised as the Eskimos in this were adhering to his injunction to them, namely, that they do not make public the fact of his discovery but to give the impression that he had not some far north. that he had not gone far north. Ask-ed whether he would be willing to meet Commander Peary personally Dr. Cook replied:

"That's rather personal and I don't know as I care to answer the ques-tion. However I have no feeling of bitterness against Mr. Peary. The only thing I will say about him now is that he is not the judge of my affairs

the correctness of his claims.

Dr. Cook received a delegation of newspapermen to-day at the Waldorf-

newspapermen to-day at the Weldorf-Astoria, where he is stopping temporarily with his family. Despite the strenuous day he put in yesterday he appeared before the reporters smiling and evidently in fine spirits. His talk to the newspapermen was large a re-iteration of former statements.

"I never said that there was a great difference in the horizon at the Pole." the doctor said. "There is a slight difference but it would take me a thousands words to describe it Pritchard, the cabin boy on the Roose reit, did not hear the whole story of the trip. He heard part of my con-versation to Whitney and included it in a letter to his mother. This letter was given to me to mail and I made

"My plans for the future are to remain right here and have a good time. I am though with exploration and I will never seek the South Pole. As I have said before, I will leave that for Scotland Shackleton Scotland snackleton.
"I have received a number of offers for lectures and a great number of messages but these I will not discuss."

Dr. Cook will be the guest of honor at a banquet by the Arctic Club of American, to-morrow night.

Commander Peary left Sydney, N.S., at 7 o'clock this morning for Portland, from which port he will go to his home at Eagle Island, Me. He owns the whole island and will therefore be free from the rest of the world with his family for a day or two William his family for a day or two. While at Eagle Island he will prepare the statement of his side of the Cook con-

statement of his side of the Cook controversy.

It is believed from a statement he made at Sydney, that he will end the Cook controversy at once and without waiting to submit his data to the Geographical societies. He intimated that he intended to discharge his artillery at once. "What I have to say will be said soon," he declared. He announced that he would accept to invitation. that he would accept no invitations until the present controversy is settled by competent authorities.

WHITNEY LETTER DECLARED FAKE

(Special from United Press.) Fishkill Landing, N. Y., Sept. 22 .-William Blodgett, who married a sister of Harry. Whitney to-day branded as a lie out of the whole cloth the letter published in New York newshave been received from Whitney by his stepmother in New Haven in Sep-tember and given out by Mrs. Blodgett yesterday. In the letter published in New York to-day, Whitney is said to have writ-ten his stepmother that he met Dr. Cook at Etah, that Cook had told him of his discovery of the Pole and that he believed him.

Biodgett declares such a letter was a fake, pure and simple. He said the family had received a letter written by Whitney from Etah, but that this by Whitney from Etah, but that this letter had been given to the United Press on September 18 and that in it Whitney merely declared he had met Dr. Cook at Etah but made absolute'y no reference to the discovery of the Pole by Cook. He declared the newspapers had liken this letter.

Company Must Bury Gar- SUCCESSOR TO bage Until It Can Reduce It In a Sanitary Manner

Order Takes Effect at 6 O'clock Tonight and Follows Emphatic Protest of East Side Property Own-

Subsequent to the big indignation meeting held in the city hall, last night against the plant of the Bridgeport By-Products Co., the Board of Health voted to-day to order the Bridgeport By-Products Co. to stop using the reduction plant in Asylum street until it is placed in a sanitary condition. The order will go into effect at 6 o'clock to-night and to-morrow the company will be obliged to bury garbage on the town farm until

such time as it puts its plant in a condition that the health board deems adequate and sanitary.

Health Commissioner Geo. T. Kelly said this morning: "The health board knows where it stands in this matter. It has a daily record of the condition of the plant and the happenings there so that it knows what it is talking of the plant and the happenings there so that it knows what it is talking about. The company is up against it if it endeavors to make the claim that the garbage is being reduced in a sanitary manner. I think that President Livingstone realizes this from the manner that our order was received. In the first place the plant is not large enough for the large amount of material that has been brought there for the company to dispose of. We certainly had to pay some attention to the protests that have been made against the place."

The company recently lost its plant

The company recently lost its plant through the foreclosure of a mortgage by Cleveland people, believed to be friendly to the company. The company has been operating the plant hrough an arrang ment with the new

through an arrangement with the new owner.

Under the contrast the company is obliged to bury garbage in case of trouble at the plant for the same price 55 cents per ton, that it reduces garbage, so that the action of the board of health is not considered an action wherein the city places itself in the position of taking the initiative to break the contract but simply changes the method of disposal.

The Bridgepont By-Products Co., is under a bond of \$10.000 to dispose of the garbage in a sanitary manner. The company claims that it would have saved money if it had forfeited the bond three years ago, but also claims

bond three years ago, but also claims it is in a position to make money if allowed to complete its contract. It has spent about \$30,000 fixing up the plant in attempts to stop the odors. plant in attempts to stop the odors.

This is the second order that the board of health has issued to close the and my proofs will go to a higher court than he."

Dr. Cook repeated that his data, when finally whipped into shape, would first go to the University of Copenhagen, as the Danish government was the first to officially recognize the correctness of his claims.

This is the second order that the board of health has issued to close the plant. The first was in 1907. Since that time the plant has been running night and day without a single stop. During the summer protests were less than last summer, but many people were located in a position to have the wind carry the stench in their direc-tion at all times when the digestors were being emptied at night and they and their families have complained continuously of being made sick by the nuisance.

WOMAN HELD FOR

Police Believe Arrest of Mrs. Maud Turner Clears Up Many Crimes

Niagara Falls, N. Y., Sept. 22.-When Detective Wallace left here today to return to Toronto with the exhumed body of the "Authers" baby, the scene of one of the most baffling crimes in the history of Canada shifted back to the Canadian metropolis. The police believe that in the arrest of Mrs. Maud Turner they have a woman who is responsible for the death of many infants. The body of a baby five days old was found on the fall road tracks last Thursday and to desig nate the case the police called it the "Authers" baby, for a piece of paper with that name on it was found pasted to the baby's back. The police here and in Toronto believed that the child had been thrown from the window of a train. They thought it had been murdered in Toronto, brought to Lewiston by boat and then disposed of.

As a result of their work they ar rested Mrs. Turner and it developed the police allege that Mrs. Turner had been given \$100 by the baby's mother to adopt the child.

The police declare the woman made it a regular business to adopt undesirable bables for a consideration, and able bables for a consideration, and they are anxious to know what has become of some of the bables which are said to have come into her possession. The police declare the woman has several husbands and it is part of their theory that men in several parts of the country have been acting as her agents in adoutting her agents and the successful real estate business. "Major" Rodina Nutt was born in Manchester.

FOR SALE.—Grocery store at inventory. James A. Pease, Meigs Bldg. acting as her agents in adopting ba-

Harry Turner, the woman's husband, talked freely to the police. He admit-ted his name was Harry Turner Gma-lin and that his wife was the daughter letter published in New York news-papers this morning purporting to have been received from Whitney by had been married to a man named Turner but said she told him Turner was dead. Further he declared he later discovered the first husband was still alive. He said he left the woman some time ago. Turner said he did not intend to go to Toronto to help her but admitted that she was in his rooms here last Thursday. The his rooms here last Thursday. is involved in a number of other adop-

The people with whom Mrs. Turne boarded in Toronto declare that with in a very few days fifty women had applied to Mrs. Turner to adopt their hables. There is considerable conjecture as to how many babies were "adopted." She had only one in her possession when she was arrested. **GOVERNOR JOHNSON** OF MINNESOTA

With the death of Governor John A Johnson the government of Minnesota passed into the hands of the Republicans, Lieutenant Governor Albert O. Eberhart, who was elected as a Republican, became Mr. Johnson's successor at the time of his death. Mr. Johnson was elected governor of Minnesota three times. His defeat of Mr. Jacobson, his Republican opponent, being a feature of the election of 1999.

AVIATOR IS DASHED TO DEATH

Capt.Ferber of French Army Buried Under Debris When Bi-Plane Crashed to Earth

One of Prominent Figures at Rheims and Made Several Startling Flights, Characerized by Dare-Deviltry.

(Special from United Press.)
Paris, Sept. 22.—Captain Ferber, of the French army, was dashed to death INFANT'S DEATH to-day when his Vosin bi-plane crashed to the earth while attempting a one of the figures in the great Interwith his bi-plane.

In colliding with the ground the

Wesin bi-plane turned a complete somersault and Ferber was buried under the debris and terribly crushed. He was alive when dragged out from the wrecked aeroplane but died on the field before the surgeons could get to

Ferber was one of the best known aviators in France but had always flown under the name of "De La Rue" or "De Rue." as his family, one of the most aristocratic in France, was greatly opposed to the advertisement his real name got. At Rheims he made several startling flights which were characterized more by their dare-deviltry than by their skill, though he was a skillful air pilot who would take any chance to keep from disappointing

NUMBER 127

Italian Police Throw Bombshell Into Black Hand Society at Palermo Today

ROUND UP BIG SURPRISE

(Special from United Press.) Palermo, Italy, Sept. 22.-The Italian police believe that among the 127 mem bers of the notorious Mafia arrested here today they have secured the leading members of the society who have been instigating most of the blackmailing schemes that have been worked of late in America, and that they will be able to clear up a number of American crimes, including the murder of Police Lieutenant Joseph Petrosini, of New York, who was shot to death here while investigating the workings of the Black Hand and Mafia.

of the Black Hand and Mafia.

The arrests were made as the result of investigations by other American detectives after Petrosini's death, working in conjunction with the members of the Italian detectives. The rounding of the band today came as a complete surprise to the organization, and it is said that many incriminating documents were seized.

A complete magazine of bombs and arms was secured by the police in the headquarters of the Mafia which they raided immediately after the arrests.

BRYAN WILL CELEBRATE ANNIVERSARY
